

# Outstanding Opportunity:

Learn about the Pharmaceutical industry from the bottom up.

## The Company:

Marlborough Pharmaceuticals Ltd is one of the fastest growing pharmaceutical companies in its sector in the UK. Our enthusiastic and expanding team continues to acquire a range of niche medicines, fulfilling valuable therapeutic needs.

We are based in the pleasant market town of Marlborough, some 12 miles from J15 of the M4 in the Wiltshire countryside, surrounded by areas of outstanding natural beauty.

## The Role:

As a result of our success Marlborough is looking to employ a **graduate management trainee**, initially to learn and then take charge of a range of activities. These would include managing the orders, logistics and invoicing for a key hospital product and provision of management information. Once trained the successful applicant would also manage the administration of the company's regulatory activities to include maintaining and improving the company's adverse event and pharmacovigilance systems.

There will be significant opportunities to learn from experienced professionals who are actively involved in the business.

## The Applicant:

A newly qualified science graduate (in a related doctrine) with up to two years relevant experience, you must be flexible and be prepared to work in a small team. Good verbal and written skills are essential as is attention to detail, together with the ability to break down often complex regulations into simple operating procedures.

A self-starter, you must be capable of applying your science training to the ever changing regulatory environment to ensure the company maintains its current standards of regulatory excellence.

## Particulars:

Salary in the £18,000-22,000 range plus a performance based bonus.

## Please send your CV and Covering letter to:

Susan Price.  
Commercial Administrator  
Marlborough Pharmaceuticals Ltd,  
35A High Street Marlborough,  
Wiltshire, SN8 1LW
